

Trusted since 1980.

JUTE SPREADER MACHINES

Modified Faller Bar (fast section complete assembly).
 Front Roller
 Front Pressing Roller
 Delivery Roller
 Delivery Pressing Roller
 Feed Roller
 Feed Pressing Roller

JUTE CARDING MACHINES (BREAKER / INTER / FINISHER CARDS)

CI Bright Roller
 CI Bright Pressing Roller (Plain & Grooved)
 CI Delivery Roller
 CI Side Delivery Roller
 MS Top Fluted Roller
 MS Bottom Fluted Roller
 Iron Stripper Roller
 Iron Worker Roller
 Iron Doffer Roller
 Iron Feed Roller
 Various Studs (Hardened & Ground)
 Feed Shell

Draftomatic Drawing Frame

Drawing Roller
 Front Retaining Roller (Duly Hardened)
 Back Retaining Roller (Duly Hardened)

JUTE DRAWING MACHINES

*Screwgill First Drawing / Second Drawing (3:1 & 4:1)
 TCF / Sacking Weft Finisher Drawing Frames.*

Drawing Roller
 Front Retaining Roller
 Back Retaining Roller
 Long Back Shaft
 Delivery Roller Shaft
 Cam Shaft
 Faller Screws
 Delivery Roller Boss
 Delivery Pressing Roller Boss
 Slide Rod

Duomack Drawing Frame

Drawing Roller
 Front Retaining Roller (Duly Hardened)
 Back Retaining Roller (Duly Hardened)

Monomack Drawing Frame

Drawing Roller
 Front Retaining Roller (Duly Hardened)
 Back Retaining Roller (Duly Hardened)

for Jute and Flax Machinery

APRON DRAFT SPINNING FRAMES

4.1/4" P, 4.3/4" P, 5.1/2" P

Bottom Roller (Complete with Bearings & Keeper Plates)
Bottom Roller (Bush type Complete with Hylam Bush)
Top Roller (Complete with Bearings)
Apron Roller (Hard Chromium Plated with Bearings)
Top Pressing Boss
Spinning Cylinder
Various Studs (Hardened & Ground)
Slide Rod (Plain / Spiral)
Heart Cam
Locating Pin
Locating Plate
Lifter Bracket
Pressing Roller Arm Shaft (Chromium Plated)

SLIP DRAFT / VEE ROLLER SPINNING FRAMES

4.1/4" P, 4.3/4" P, 5.1/2" P

Bottom Roller
Top Roller
Fluted Roller
Idler Roller
Top Pressing Boss
Spinning Cylinder
Various Studs (Hardened & Ground)
Slide Rod (Plain/Grooved)
Heart Cam
Locating Pin
Locating Plate
Lifter Bracket
Top Vee Roller
Bottom Vee Roller
Top Idler Vee Roller
Bottom Idler Vee Roller

DRAWHEAD MACHINE

Drawing Roller
Bottom Retaining Roller
Top Retaining Roller
Delivery Roller Boss Bottom with Shaft
Delivery Roller Boss Top with Shaft
Bottom Delivery Shaft
Top Delivery Shaft
Input Drive Shaft

RING TWISTING MACHINES

5.1/2" P, 8" P, 10" P

Drawing (Bottom) Roller

RING DRY SPINNING FRAMES

Rollers for PS100
Rollers for NSC (CF)
Rollers for Weller
Rollers for Mackie

FLAX WET SPINNING FRAMES

Rollers for L5 & L8 Machines
Rollers for LINMACK Machines

FLAX DRAWING FRAMES

Rollers for 1st, 2nd & 3rd Stage Machines

JUTE BAILING PRESS

(UL / RS)

Press Ram Lamination with Stainless Steel Sheet

Set up in 1980 by promoters having long working experience with the erstwhile James Mackie & Sons, Belfast, **Magnum** started manufacturing the complete range of Rollers for Jute, Spinning and Drawing Frames. The rollers are produced in our complete in-house manufacturing facility comprising of conventional & CNC Machines. The newly installed latest computerised heat treatment facility ensures optimum performance of our products. **Magnum** has become the benchmark of high quality rollers which have been acclaimed by leading jute mills in India, Bangladesh, Pakistan, Brazil, Vietnam and many African countries.

While we specialise in rollers for Jute Machinery, we have also successfully developed rollers for Flax Drawing & Spinning Frames including Linmack Machines.

Aiming to meet the demand for other critical spares of Jute and Allied Textile Industries, **Texspares** has been set up to manufacture quality spares for Jute Spreader Machines, Carding Machines, Looms, Stainless Steel Lamination of Press Ram and similar items. This value added range of products ensures customers of **guaranteed quality** from within the group.

With our long experience and strong engineering back ground, we are ready to cater to customers from allied textile industries in fulfilling their requirements of various precision spares.
